

Nasirahmed Sayyed

Full Stack .NET Developer | 4+ Years Experience

nasirsayyed84@gmail.com | +91-8485005212 | Sangli, Maharashtra | [LinkedIn](#) | [GitHub](#) | [HackerRank](#)

PROFESSIONAL SUMMARY

Results-driven Full Stack .NET Developer with 4+ years of experience designing and delivering responsive web applications, SaaS products, microservices, and data visualization platforms. Proficient in C#, .NET Core 8, React.js 19, and SQL Server, with hands-on experience building products end-to-end — from user onboarding to payment gateway integration (Razorpay). Proven track record of automating workflows and building scalable solutions across logistics, healthcare, agriculture, and government domains.

PROFESSIONAL EXPERIENCE

Software Engineer

Simulytics Tech Private Limited, Pune | April 2026 – Present

- **LogiSKU – WMS SaaS Platform:** Built the LogiSKU Warehouse Management SaaS product end-to-end using React.js 19 and .NET Core 8, owning the full user journey from sign-up and onboarding to subscription billing. Integrated the Razorpay payment gateway to enable secure, automated subscription payments and seamless checkout.

Software Engineer

Techlore, Pune | November 2021 – March 2026

- **RB Dashboard:** Architected a real-time responsive analytics dashboard using ECharts.js and JQWidgets (.NET), with dynamic database-driven menu rendering and role-based access control, reducing dashboard load time by 30% through modular iframe rendering.
- **Workflow Automation:** Built automated console applications that schedule email notifications with Excel report attachments and trigger stored DB procedures, eliminating 6+ hours/week of manual reporting effort.
- **Sofosh HSR Portal:** Developed a full-stack adoption management web app (React.js + .NET Core) with CRUD operations, file uploads, email reminders, and post-placement tracking — delivering a mobile-responsive UI serving 100+ case managers.
- **Valneva Disease Heatmap:** Engineered a .NET Core microservice that ingests and persists daily disease records from external APIs, powering an interactive Leaflet.js global heatmap visualizing case distribution across 50+ countries.
- **EMO Warehouse Management System:** Built front-end modules for a web-based WMS using JavaScript, AJAX, and JSON, implementing dynamic grid filtering and real-time data rendering to streamline operations for 20+ warehouse staff.
- **BukTec Desktop Middleware:** Designed a desktop middleware application to automate bi-directional data sync between Tally ERP and BukTec Web APIs, reducing manual data entry by 80% and eliminating sync errors.
- **Maha Gen Bank Platform:** Built a government data visualization platform for Maharashtra agricultural scientists, integrating interactive Leaflet.js maps, dynamic charts, and advanced filtering across 10,000+ plant science research records.

TECHNICAL SKILLS

Languages

C#, JavaScript, SQL, HTML5, CSS3

Frameworks

.NET Core 8, ASP.NET MVC, React.js 19, AngularJS, ADO.NET, Entity Framework

Front-End

jQuery, Bootstrap, JQWidgets, ECharts.js, Leaflet.js

APIs / Integration

REST API / Web API, Razorpay, AJAX, JSON

Databases

MS SQL Server

Tools

Visual Studio 2022, Git, Postman, SSMS

Practices

Agile / Scrum, Microservices, MVC

Cloud

Azure (Fundamentals)

EDUCATION

Bachelor of Engineering

Computer Science

ATS Sanjay Bhokare Group of Institutes, Miraj, Sangli

July 2017 – March 2020 | 85.31%
